

# 'Nippy Weather' Tips Can Help Save on Fuel

Despite the sometimes summer-like weather seen in January, Southland residents can expect some chilly changes in the winter months still ahead.

That's the word from "Nippy Weather," popular newspaper and television spokesman for the Southern California and Southern Counties Gas companies.

Nippy's messages on stretching the winter fuel budget are familiar to most Southland residents. Nippy made his debut in newspaper advertisements and television commercials four years ago and he's still going strong, according to gas company officials.

"The purpose of our 'Nippy Weather' program is to help our customers get the most out of their winter fuel budgets," a gas company spokesman explained.

"This sort of help is almost as important a responsibility to a public utility as providing dependable gas service," he added.

Nippy's message includes seven suggestions to help keep gas consumption at a comfortable minimum—and keep gas bills down—during the winter months.

- Turn down the furnace control at bedtime.
- Draw the drapes over windows and sliding glass doors at night.
- Close the flue when not using the fireplace.
- Repair leaky hot-water faucets—they waste gas as well as water.
- Close the baffles (vent) above roof type coolers during the heating season.
- Make a seasonal check of the asbestos joints of forced-air ducts in the attic or under the house to insure against heat loss.
- Vacuum or brush off the furnace filter at least once a year.
