

'If you have a weight problem, we could do for you what we did for Mrs. Blevens, remove your excess pounds and then firm and tone your figure to keep its new shape!'

says Miss Pat McElroy, Director, Hilton-Stauffer Reducing Salons and leading Figure Authority.

Virginia Blevens—here are her "before-and-after" pictures—was once an uncomfortable 198 pounds. After Stauffer she trimmed down to a slim, svelte, 135 pounds. To quote her heartfelt thanks, "I am one of the happiest women in the world!" And Virginia is only one of thousands of women who, with the aid of the Stauffer system, have rid themselves of an unlovely and unwanted shape. There is no reason why any woman should suffer the indignity or inconvenience of a "floppy" figure. There is no reason for her mirror to tell her that trim hips, a flat tummy or slim thighs belong to youth. We have proved this time and again, Virginia Blevens is a fine example of how a woman can regain, improve and keep her figure. Note how her weight-loss is not apparent in any one place. Her reduction has been a scientifically controlled process that has brought back and firmed the natural contours of her body. Such results do not surprise us because we see it happening all the time and, if you have a figure problem it could happen to you just as easily! Stauffer is the most fabulous way to reduce. It's easy, convenient and inexpensive. It puts no strain on you, in fact you'll find it superbly relaxing. You don't have to crash-diet or take pills. We get the results we do because our service is highly personalized. It is this scientific approach that sets Stauffer miles apart from other reducing methods; it is the reason why we can help women like Virginia Blevens regain and keep their figures. It is the reason why we can help you. Once you start on a program you'll be surprised with the results you get—most women see changes in as little as ten days! Your Stauffer hour will become your hour of beauty. It is what you owe to yourself. No one can call you selfish for taking care of the only body you will ever have. And you can contribute more to your home, to your family, your friends and your job when you are trim, slim and firm and able to face the world with confidence.

BEFORE STAUFFER — AN UNGAINLY, HEAVY 198 POUNDS! AFTER STAUFFER — A SLIM, TRIM 135 POUNDS! — THAT, IS POSITIVE REDUCING!

More proof that Stauffer does remove excess weight and inches... where you need to lose...

Mrs. Hazel Wood tried desperately to reduce for her son's wedding. Her figure problem is obvious and one that is a constant source of worry to so many women of all ages. She tried dieting and calisthenics but all to no avail. All they did, was leave her tired, listless and fatigued. She came to us with her problem and, in next to no time, she started to record most encouraging progress. She has lost 2 inches from her bust, 2 inches from her waist, 2 inches from her hips, 5 inches from her thighs and at least one inch from her upper arms. But what has pleased her most is the wonderful improvement in her abdominal area. The pictures on the right tell the whole story at a glance. And this is just the beginning. Along with the thrill of "positive-reducing" Mrs. Wood's outlook has changed, she is full of "pep" and, as she will tell you, has to slow herself down, she feels so fit! Reducing where you need to reduce is one of the wonderful advantages which the Stauffer system offers to its patrons. In many cases figure problems are related to inches rather than pounds and a simple weight-loss isn't the answer. In fact a heavy uncontrolled weight-loss could endanger both health and appearance. Mrs. Wood's improvement is due to correct programming based upon a scientific analysis of her figure, and her willing cooperation. It could be just as simple and easy for you to achieve a similar result. Why not discuss your problem with us?

Be Miss McElroy's guest for a FREE figure analysis and FREE trial treatment

There are many factors which contribute to an overweight condition. But frankly, it is impossible for us to be of real help unless we understand your problem. Once we have had the opportunity to investigate and evaluate... then we can come up with a program that will meet your individual needs and which will be successful! That is why we offer FREE consultation, figure analysis and trial treatment at no cost or obligation on your part. The standard price for treatment is \$2.00. You are told, quite clearly, the number and frequency of treatments required to help you reach a pre-determined goal. Thus you know exactly what a Stauffer program is going to cost you. There are no extras and no expensive equipment to buy.
