

MARY WISE Menu Planners

FOR A COLORFUL summer salad, combine fresh peach halves, whole plums, cream cheese and nuts, serving the fruits on a bed of endive or lettuce.

TAKE ADVANTAGE OF FRESH FRUITS

The smart homemaker will take advantage of fresh fruits in season by serving them often. For eating out of hand, there is nothing like a fresh plum. And who would pass up breakfast cereal or dessert topped with luscious fresh peaches? This simple and colorful salad makes use of both these fruits.

SUMMER PLUM PEACHY SALAD

- Fresh California peaches
- Fresh California plums
- Cream cheese
- Chopped nuts
- Mayonnaise
- Endive

For each salad, peel one peach, cut in half and re-

move pit. Brush with lemon juice. Wash two plums, cut in half and remove pit. Stuff with cream cheese and push back together. Top with chopped nuts. Lay peach halves across from each other on bed of lettuce. Put a whole plum on each of the other slices. Top peaches with a spoonful of mayonnaise. Chill and serve.

HURRY UP TREAT

For a hurry-up feast for waffle-loving families, toast unbuttered slices of enriched white bread in the waffle iron, then serve hot and crispy with syrup and butter.

SO LEE SAY: Watchmakers give a hand to Sona Soy Sauce as their "all-time" favorite.

Cold Cuts Fine Summer Fare

As our days are long and warm, you'll undoubtedly be entertaining more frequently. A smart choice for guest suppers and late evening snacks is an attractive array of cold cuts. Serve the hearty meat assortment with a tasty salad and a choice of breads.

When purchasing cold cuts, choose meats which contrast in color (some light, some dark), flavor (some spicy, some mild) and shape (some round, others square or rectangular).

It's also a good idea to vary the cold cuts assortment with slices of cooked tongue, baked ham or roast beef. Beef tongue is an economical choice. What's more, it's a cinch to prepare — just simmer with seasonings (peppercorns, whole cloves, sliced onion and bay leaf) in water to cover until tender. When cool, peel off skin and remove root ends. Chill and slice.
