of the phone you're calling from. If for any reason you can't dial the emergency number direct, dial "0" for Operator. She's always there to help you.

WE HAVE A PLAN—That will change your telephone book and make it much more useful to you. We're plan-ning to rearrange the white pages of your Southern Los Angeles Directory from the present 1200 to under 400 pages. The Yellow Pages section would remain just as it is now.

A suggested name is the SOUTH BAY AREA DIRECTORY. Rearranging the Southern Los Angeles Directory would give you your book, for your area, with listings for the places you call most often, places nearby. For example, your directory would include names for all San Pedro, Torrance, Lomita and Redondo Beach telephone cus-tomers. If you need any of the three other directories planned for other communities now in the Southern Di-rectory all you have to do is ask, we'll deliver the one you want to your home or office, no charge, of course.

We interviewed hundreds of Southern Los Angeles area customers, and this plan reflects their interest and many of their ideas for a simplified directory. The first edition is planned for October, 1967 (no change this year) subject to approval of the California Public Utilities Commission. We believe it will make your telephone book much easier to use. If you have any questions please call your Tele-phone Business Office.
