Supervisor Chairman Burt on W. Chace has announced the filing of an apparent low bid of \$164,286 by Emmett J. Malloy of Hawthorne for construction of another unit in the South Bay coastal barrier program to protect fresh water supplies.

A total of four were submitted, ranging to a high of \$199,084. Bids will be reviewed by the Flood Control District and a contract approved by the Board of Supervisors Tuesday, Chace explained.

The line, paralleling Valley Drive, extends into portions of Hermosa Beach and Manhattan Beach. The unit is designed to halt encroachment of sea water into fresh ground water supplies along the coast, Supervisor Chace said.

He also announced recent completion of another portion of the water protection program, a \$163,540 project by Tereon Co., which drilled five recharge wells in the Redondo Beach area.

Fresh water is pumped into the wells to provide a barrier against intruding salt brine.

FOOL NEIGHBORS

Your neighbor will never know you're fencing him out if you use an attractive fence style like board-on-board or vertical louvers, then plan a planting bed on his side to give to him a pretty view.

THE LAW OF SPIRIT

Without it there would be no justice, no hope of "peace on earth." Spiritual law is the force of God's intelligence and love. It is the force that establishes enduring health. It is Truth speaking to the human heart . . . the power of divine Mind transforming the universe . . . the substance of every worthwhile thought and act known to man. It's what Christian Science is about. Hear this public lecture presented by PAUL STARK SEELEY, C.S.B., member of the Board of Lectureship of The First Church of Christ, Scientist, in Boston, Mass. The title is "Christian Science: The Revelation of Spiritual Law."

"We should make every effort to see that this vital issue passes. The need is paramount and the bond financing method is the best means of providing funds without burden to present-day taxpayers," he added.

Torrance Couple Wins \$1,000

A \$1 bill received in change has turned out to be worth \$1,000 for Mr. and Mrs. Donald L. Smith of 5019 Carmelyn St.

The Smiths received a check for \$1,000 last week after matching the serial numbers in a nationwide Lucky Bucks Sweepstakes contest sponsored by Gold Medal Kitchen-Tested Flour and Gold Medal Wondra Flour, both products of General Mills.

Mrs. Smith said she and her husband checked serial numbers for several months before coming up with the winning \$1 bill.

Smith, an engineer at Nortronics, received the bill in change at the Food Giant Market, 4849 W. 190th St. He

almost spent it before deciding to check the serial number.

Part of the money will be used for a down payment on a new car, the Smiths said.

One bill worth \$25,000 was found by a Kansas housewife, and 14 other bills valued at \$1,000 have been turned in to date. Prizes range from \$1,000 to \$100,000.
