TREAT YOURSELF TO A SHOW-OFF SLIM FIGURE

AS WRITTEN BY MRS. JACKSON

For the greater part of my life I have been underweight. Then I began putting on three or four pounds a year until I was just too many pounds overweight. Being small boned, I looked even heavier than I was.

Previous to trying the Kirby System I spent time, money and much effort on steam baths, a medical weight control program, exercising at a gym, and many different diets — with no results.

When I saw an ad in the paper for the Kirby System, stating they gave a guarantee, I took a trial treatment and started the program.

Perhaps I'm more delighted with the results than the average person because of the other methods I'd tried without success. The treatments are relaxing and pleasant to take and they really work.

Also the honesty of the company has really impressed me. It's amazing that they can give a guarantee on something as intangible as weight and inch loss — but they do. My firming and toning treatments have been without charge because it took me a little longer than expected to lose the inches and weight I needed to.

I sincerely recommend the Kirby System to anyone, and I know they will be as delighted with their new figure as I am with mine.

(Signed) Peggy Jackson

Investor's guide!

A Cadillac remains unmistakably a Cadillac regardless of year. New or previously-owned, its impressive size, its remarkable beauty and its continuity of styling have all contributed to Cadillac's reputation as the finest of all luxury car investments.

Every day, more and more wise car buyers are discovering that they can get more performance, luxury, distinction and pride of ownership in a previously-owned Cadillac than in many new cars of lesser stature. For example, Cadillac engineering has always been so advanced that many features of Cadillacs several years old are just now finding their way into new cars of other makes. And Cadillac has for years provided as standard equipment automatic transmission, power steering,

power brakes, power windows and power seats on most models, automatic cornering lights and many other conveniences that even now cost extra on most new cars. Consider, too, the extra reassurance of motoring in an automobile of Cadillac's impressive size and stature. Before you buy your next car, be sure to look for your authorized Cadillac dealer's used car sign. It is the best possible landmark for a wide, attractively priced selection of well cared for, previously-owned Cadillac cars.
