

Jewish Contributions To the Arts Explored

Inaugurating their program of cultural events, the Adult Education Committee of Temple Menorah and the Congregation Ner Tamid of the South Bay will present a series of three Sunday evening programs surveying Jewish contributions to the dance, visual arts, and music.

Commencing the first in the series will be Schlomo Bachar, Israeli folk dancer, and his Israeli Hadarim Folk Ensemble, who will present a dance program in Yemenite, Chassidic, Eastern European, and Israeli Style folk dances. The event will be held at Temple Menorah, 1101 Camino Real, Redondo Beach, tonight at 8 o'clock.

On Dec. 10, Dr. Will Kramer will give a talk on "Jerusalem and Jewish Art." Dr. Kramer, an authority on Jewish art, will illustrate his talk with color slides from his private collection.

On Sunday, Jan. 21, Erwin Jospe, dean of the School of Fine Arts, University of Judaism, will discuss "Folk Music as a Mirror of Jewish History."

Vaccine Prevents Only One Kind of Measles

"Don't confuse your measles," Dr. Earl W. Kendrick, Torrance District Health Officer, said today. There are two varieties of measles. The vaccine prevents only one.

The kind of measles for which the vaccine is used, is called rubella, common measles, or the seven-day or ten-day, or the red measles.

Sickness with this kind of measles has a pronounced, long-lasting rash. For three or four days before the rash appears there are usually other symptoms of illness, such as running nose, fever and coughing. This kind of measles may have severe complications.

Pamphlet Gives New Credit Info

A new worldwide guide to sources of credit information on foreign business enterprises has been published by the federal government, it was announced this week by the Torrance Chamber of Commerce, a cooperative office of the U.S. Department of Commerce.

Titled "Sources of Credit Information on Foreign Firms," the publication serves as an aid to American firms investing or manufacturing abroad. It complements the department's long-established World Trade Directory report service.

The new publication consists of two major parts. One provides general information on foreign credit reporting facilities within the continental U.S. as well as territorial areas. The second lists foreign sources of credit information.

"Sources of Credit Information on Foreign Firms" may be obtained at 35 cents per copy from the Superintendent of Documents, U.S. Government Printing Office, Washington, D. C. 20402, or from any of the Commerce Department's 42 field offices, including the Los Angeles office.

is called rubella or German measles, or three-day measles. The rash with this measles is less pronounced and there are few pre-rash symptoms. Medical science, some time in the future, hopes to have a vaccine for this disease, Dr. Kendrick said. This is the type of measles that is dangerous for women to contract during the first three months of pregnancy, since it can be passed on to the fetus and result in severe birth defects.

Measles vaccinations are being emphasized by the Health Department in school immunizations this year. In addition, parents of young children, at least a year old, are able to bring the children to their private physician or the Torrance Health Center, 2300 W. Carson St., Monday through Friday from 8:30 to 11 a.m. and 1 to 3:30 p.m. A special measles clinic for preschool children will be held at the Torrance Center, Wednesday, Nov. 29, from 2 to 3 p.m. There is no charge for immunizations.

A new state law will be put into effect in 1968 requiring measles protection for school admission. Parents should contact their doctor or the Health Department now.
