**SECOND CAR**

The Volkswagen Station Wagon makes an ideal second car. Because it costs less to run than any conventional wagon. For example, it gets you about 23 miles on a gallon of regular gas. Its tires should last for about 35,000 miles. It takes 5 pints of oil. Not quarts. 4 spark plugs. Not 6 or 8. There's no anti-freeze to buy. Because there's no radiator. The engine is air-cooled. You probably think that with such low operating costs, its buying cost is high. But it isn't. You can buy a Volkswagen Station Wagon and a Volkswagen Sedan for the same price you'd pay for some conventional wagons and their optional extras. It's our two-for-the-price-of-one deal.
