**New Post Office Planned  
For the Waleria Station**

Plans to acquire new quarters for the Waleria Station of the Torrance, California Post Office were announced yesterday by Postmaster General Lawrence F. O'Brien, who said the Post Office Department is seeking bids to build and lease the new facility. The Department has not selected a site for the proposed building, and each bid

for the lease must include a suitable location as part of the offer. The preferred location is in the same general area of the present station.

SPECIFICATIONS call for a structure containing approximately 5,000/6,000 square feet, with a 16,000/17,000 square foot outside loading platform, and 23,000/25,000 square feet of paved area for

parking and movement of postal vehicles. The Postmaster General said the building will be constructed under the Department's lease construction program, which utilizes the resources and investment funds of private enterprise for needed postal buildings. Under this program the successful bidder will construct the building according to departmental specifications and lease it to the Post Office Department for a basic period of 10 years, with options to renew the lease for an additional 20 years.

THE DEPARTMENT'S capital investment will be limited to postal equipment. The building will remain under private ownership while leased to the Federal Government and the owner will pay local real estate taxes. Bidding documents are now available and may be obtained from C. J. Cox, Regional Real Estate Office, P. O. Box 591, Los Angeles, Calif. 90053. The Real Estate Officer will supply bidding forms, building specifications, lease provisions, and other information. Bids must be submitted to the Real Estate Officer by Friday.
