HAHN REPORTS

County Health Agency Rates Best in Nation

By KENNETH HAHN
County Supervisor

The Los Angeles County Health Department is the best in the nation.

Its purpose is to keep every citizen healthy.

It provides immunizations to protect from disease, constant inspections of places where food is sold and stored to prevent disease, and numerous clinics to cure.

Nearly 200,000 men, women, and children attended a variety of clinics at 10 different County Health Centers within the Second Supervisorial District during 1967.

I AM particularly proud of the diversified health services available for children. At well-baby clinics, youngsters less than two years of age are given regular physical examinations. Pre-schoolers receive shots to protect them against diphtheria, whooping cough, tetanus, polio, smallpox, and measles. In addition, there are skin tests for tuberculosis and eye and ear examinations.

To carry on the vast service program, my district is served by 10 major health centers and several subcenters.

The centers are Central, Compton, Hollywood-Wilshire, Inglewood, San Antonio, Santa Monica-West, South, Southeast, Southwest, and Torrance.

AS THE population continually grows, there is a critical need to expand health facilities.

As a result, the North Enterprise Branch Health Center was opened recently at El Segundo and Avalon Boulevards, replacing an obsolete facility. In addition, the size of South Health Center has been doubled, bringing it up to major health standards.

Planned is a 5,600-square-foot addition to the Florence Firestone Branch Health Center, almost tripling its size. It is hoped construction will begin next year.

ALSO, I have asked that priority be given to replacing the 35-year-old Inglewood Health Center with a modern facility. This center is now located in rented headquarters at 101 South Greville Ave.

A new parking lot has just been completed at the Southwest Health Center, which re-

lates the crowded parking condition. Public health projects are among the most vital contributions offered by county government, and I will continue to give my personal and highest attention to health programs which will give the maximum protection to our community.
