Solon Labels Implied Consent Law Unworkable

Capitol News Service
SACRAMENTO — Senator James Q. Wedworth, D-Hawthorne, said the implied consent law — which requires suspension of a person's driver's license if he refuses to take a drunk driver test — is unworkable and unfair.

Rice Student Listed on Honor Roll

Richard D. Parker, 1963 North High graduate, is one of 505 Rice University students named to the President's Honor Rolls of Superior Students for the fall semester, 1967-68. He is in his fifth year at the Houston, Tex., university.

While attending North High, Parker was an outstanding student and a member of North High's CIF football team, according to Dr. Richard D. Guengerich, principal. Parker was also a member of the Rice football team during his first four years at the university.

PROGRESS IN SPACE . . . Capt. A. Howard Hayden (right) of Torrance receives Air Force Scientific Achievement Award from Lt. Gen. John W. O'Neill, commander, Air Force Space and Missile Systems Organization in El Segundo. Capt. Hayden won the award for his work aimed at increasing the in-orbit lifetimes of satellites.

Satellite Engineer Honored

Capt. A. Howard Hayden of Torrance has been awarded the Air Force Scientific Achievement Award for his work aimed at increasing the in-orbit lifetimes of satellites.

A systems engineer, Capt. Hayden is primarily involved with Vela satellite detection systems. The Vela Program has provided the U.S. with a ring of eight satellites above the earth, capable of detecting any nuclear testing within the earth's atmosphere as well as in the far reaches of space.

Capt. Hayden won the achievement award for an experiment developed in connection with the last launch of Vela satellites. The experiment, carried "piggyback" aboard the Vela spacecraft, was orbited from Cape Kennedy in April, 1967, by a Titan III-C space booster.

The experiment is returning data which may help the Air Force slow solar cell degradation in space, and which would, therefore, prolong the orbital lifetimes of satellites depending on solar cells for power.

In addition to the Scientific Achievement Award, he has received two Air Force Unit Citations and two Air Force Commendation Medals.

Solon Labels Implied Consent Law Unworkable

Wedworth has introduced SB860 which would repeal the implied consent provisions but also would require the automatic suspension of a driver's license upon a drunk driving conviction by the court.

"It has become increasingly obvious that those sections of the code which mandate automatic suspension of a person's driver's license for failure to submit to a chemical test for sobriety are not only unworkable, but often prohibit effective enforcement of other sections of the code," Wedworth said.

"Over and over again the courts have dismissed charges because of the impossibility of effectively administering a law which clearly violates the due processes of the accused," he said. "This is an indicator to the legislature that we must improve this law if we are to alleviate the dangers from drunken drivers."

Youth Hurt In Crash

A young motorcyclist was knocked unconscious Thursday afternoon when his vehicle collided with a car on 190th Street near Prairie Avenue.

In fair condition at Harbor General Hospital with severe neck injuries is John M. Large, 18, of 1786 Plaza del Amo, Apt. 3. His passenger, Bill Allen, 17, of 4613 W. 147th St., received cuts and abrasions.

Their vehicle collided with a car driven by Eileen Stapleton, 16934 S. Berendo St., Gardena, as she was entering 190th Street from private property.

Boat Registration Bill Introduced In Assembly

Assemblyman Vincent Thomas (D-San Pedro) has introduced a bill to transfer the function of registration of Motor Vehicles to the Department of Harbors and Watercraft to the Department of Motor Vehicles.

The measure, to be known as AB 1808, will return to the Department of Motor Vehicles the authority it had for registration of undocumented small craft vessels prior to 1962.

"I have not been pleased with the way the registration function has been conducted in recent years," Thomas said. "The Department of Harbors and Watercraft does not have branch offices throughout the state and all business must be handled by mail to Sacramento."

"The department has tried to overcome the problem by appointing private persons (usually boat salesmen) as registration agents," Thomas explained, "but these persons are generally unknown to the public and due to a large turnover of agents many mis-
