Cadillac Motor Car Division

Your new car may be the most important family decision you'll make this year.

To be sure you make the right choice, talk to your Cadillac dealer before you decide.

As a specialist in luxury motoring, your Cadillac dealer has some interesting things to say about quality and value in a new car.

The brilliant 1968 Cadillac gives him plenty to talk about. Quality abounds in the spacious, lavishly appointed interiors, in the smooth, quiet ride and in the solidity of Cadillac construction.

These Cadillac qualities are universally recognized. Year after year, Cadillac returns a greater

portion of its original cost at resale than any other car built in the land. Major advancements this year, such as a totally new 472 V-8 engine (largest V-8 ever to power a production passenger car), further assure a high resale value.

There's no better time than now to talk quality and value with your Cadillac dealer. Your selection of models may never be better; your present car may never be worth more. See him before you decide.
