

Hayward Calls for More Anti-Narcotics Measures

Slamming the door on narcotics traffic at the Mexican border has been described by Congressional candidate David K. Hayward as "an urgent necessity."

"We must destroy the source of narcotics, eliminate the pusher, educate the user," Hayward declared.

Hayward, a Democrat, said he will continue to exert efforts to provide guidance in the field of narcotics and delinquency in the capacity of Congressman from the 17th Congressional District.

"THERE IS a critical need for the enactment of stricter laws to cope with narcotics which is undermining the morality of a segment of our youth," he declared.

Hayward, a Redondo Beach councilman, expressed vital concern about the increasing number of youths who have become involved with narcotics.

His interest stems from many years of identification with youth activities such as the Boy Scouts and Little League baseball. It was because of his efforts as a volunteer worker Hayward received recognition as South Bay youth baseball man-of-the-year recently.

"THE MAJORITY of our youths are a credit to society," he observed. "But positive efforts must be made to assist the growing minority from turning to drugs and dependence upon an artificial means of providing themselves with a false sense of security."

Hayward described the international border as a major artery in the flow of narcotics from Mexico into Southern California.

"Existing laws pertaining to enforcement in the United States and Mexico are not in keeping with the desires of society," he said.

THERE IS A need for more cooperation from Mexican authorities, Hayward indicated.

"For instance," he said, "if a Mexican farmer is caught growing a field of marijuana the crop is destroyed by fire. However, no attempt is made to educate the farmer and teach him to grow a more useful or more respectable product."

"Unfortunately the farmer is interested only in obtaining money to feed his family," Hayward observed. "As a result he is being used by these unscrupulous international peddlers who capitalize on human weakness."

AS FOR OUR SIDE of the border, new, intensified educational programs are needed, he said.

"We must discourage youth from sampling narcotics," he said. "The mere sampling of marijuana may lead youths into a world of false fantasy that results in addiction, immorality and crime," Hayward declared.

Proposals Received For Drain

Herb Smeltzer Construction Co. of Rolling Hills Estates has filed an apparent low bid of \$94,233 for construction of additional storm drain facilities in the Lomita area. Supervisor Burton W. Chace said today.

The offer was low among 18 submitted to the County Flood Control District. High bid ran \$138,622.

Chace said all bids will be checked by district engineers and the Board of Supervisors is expected to award a contract in ten days.

It will call for construction of a project consisting of nearly a mile and a half of reinforced concrete pipe conduit.

Routing begins in 254th Street, west of Western Avenue, runs in 254th to Walnut Street, in Walnut to Ebony Lane, and in Ebony Lane to Lomita Boulevard.

Work will start within three weeks after the contract award and is expected to take about six months to complete, Chace said.

Point Sur Lighthouse in Monterey County is reported by National Automobile Club to be situated 270 feet above the pounding surf.
