

Mountain Tunnel Proposed

The State Senate has approved legislation calling for a study on the feasibility of a toll tunnel through the San Gabriel Mountains between Antelope Valley and the metropolitan Southern California area.

The bill, authored by Sen. Ralph C. Dills (D-Gardena), was approved unanimously by the upper house and sent to the Assembly.

SENATOR DILLS said the tunnel would lead to the development of the Antelope Valley, increase the traffic to the area, and provide the first really convenient road through the mountains to the valley and the high desert area.

His bill creates the Los Angeles County Toll Tunnel Authority, to be governed by a board consisting of the members of the Los Angeles County Board of Supervisors, and requires the Authority to submit a report of its study upon completion to the Legislature.

... "I AM VERY happy," the period."

Los Angeles County Toll Tunnel Senator said, "that the Senate, Senator Dills said the bill, Authority, to be governed by has seen fit to make it possible for a study to be conducted on the advisability of agencies and organizations the tunnel. Such a tunnel including the Los Angeles would create thousands of County Board of Supervisors, jobs for the unemployed as the city councils of Pasadena, well as the under-employed Palmdale, and Lancaster, and over an eight- to ten-year the chamber of commerce of Little Rock and Acton.
