

By ARTIE DEE

Transportation Editor

June is the month young people try to prove two can live as cheaply as one; that is, if one of them doesn't eat. In fact, that isn't the only lesson they learn, once the knot is tied. I got a package deal when Martha and I became one; her mother came to live with us. One of the mistakes many newly marrieds make is, too many payments and not enough income. RTD can go a long way in keeping this condition from developing, by providing low cost Extra-CAR service and eliminating the need for that second car. By not buying and operating a second car, a young couple can save up to \$100 per month. Think about that, and send for a system map.

As of June 1st, the big red London double decker buses began shuttle service to the Queen Mary, within 100 feet of it, that is, the "Queen" is located at her permanent berth along side Pier J. Destined to become a floating maritime museum, hotel, cafes, nite clubs, shops, and convention center in about a year. Take the 36 line to the Long Beach Terminal at 56 North Long Beach Boulevard. From the terminal, it is a short walk to Broadway and Pine, where the shuttle buses leave from. Send for a system map today.

Come the 4th of July, this town will be busting out all over with fireworks display. Contrary to popular belief, more of these are free, than otherwise. For the 13th successive year, the Department of Parks and Recreation for the City of Los Angeles will be sponsoring fireworks displays at 28 locations. During the day there will be games, races, baseball, contests, dances and picnics. Last year these free displays drew almost 1/2 million good folks. The RTD network of lines serving Los Angeles and surrounding communities can't help but reach many of these recreation areas. Send for a system map and plan to take in one of these exciting displays. Q. Would you tell me the easiest way to get from Redondo Beach to City Hall, Los Angeles? I have to be there at 8 a.m. Mrs. C.L.

A. A new commuter service started June 16th from Rolling Hills Estates, serving Walteria, Redondo Beach, etc. The 6:47 a.m. bus from Catalina Street in Redondo Beach will get you to 7th and Spring by 7:45, leaving you 15 minutes to go to City Hall.

Q. I live on 190th, near Earle Street, and I want to visit some friends in Alhambra. How do I go and how long will the trip take? Mrs. M.T.

A. The 104 line on 190th and Rindge will take you to Hawthorne and Broadway, where you can transfer to the 5 line to 7th and Broadway. Walk one block east to Spring and transfer to the 52 line to Alhambra. The trip, one way, will take approximately two hours and forty minutes.

Q. How often does the 100 line go into the Airport and does it connect with the 101 line in the evening? Mr. M.A.

A. The 100 line runs every 20 minutes between 5:20 a.m. and 12:15 a.m. The 101 line runs on an hourly schedule. They do not connect exactly, so I'll send you both timetables.

Q. Please send me a timetable of the new 125 line I read about in the paper and tell me what the fare is from Rolling Hills. Mr. O.J.

A. Your timetable has been sent and the fare is 85 cents, one way.

Send your questions to Artie Dee, Transportation Editor, care of this newspaper. All questions will be answered in the column, or by mail. A system map will be sent FREE to each person writing in. NO STAMPS OR STAMPED ENVELOPES ARE NECESSARY.

Cal Expo Opens in Sacramento Monday

The American state fair—a tradition dating back more than a century and a half—takes a bold stride into the future this summer with the inauguration of the California Exposition in Sacramento.

As California's official new showcase, it opens next Monday and runs through Sept. 10. The Exposition, or Cal Expo, is designed to operate year-round, acquainting a projected 4.2 million visitors annually

with the glories of the Golden State while delighting them with millions of dollars worth of elaborate rides, amusements and entertainment extravaganzas.

Shows ranging from the Mexican National Ballet to the Design X (Ten) exhibition of California creativity will be added to traditional state fair events, which are being glamorized for their Exposition debuts.

Approximately one-half of the Exposition's 650 acres will be utilized. Action will be concentrated in a 75-acre zone elevated by an elevated walkway offering visitors an interior panorama of its florid

culture pavilion and its main exhibit buildings, as well as an overall view of the Exposition grounds.

The amusement plaza will feature 20 specialty rides selected from throughout the United States.

CAL EXPO sports action will include championship rodeos, boxing events, a Mexican charreada (rodeo) and an Aug. 26-Sept. 10 thoroughbred horse racing meet.

Troupes of dancers, musicians and entertainers from Hollywood, Europe, Asia and Latin America are being booked for periods ranging from one night to several weeks.

These will all be in addition to such traditional State Fair activities as 4-H and Future Farmers of America competitions, the antique show, gem and mineral show, teen world, industrial arts

show, and international textile show.

WHILE an anticipated audience of 1.5 million Californians and out-of-state visitors wander among Cal Expo's fountains and lagoons this summer, construction activity will be held to a minimum.

When the vacation season ends, however, designers and workmen will plunge back into the job of putting together such future attractions as Fiesta Island, a showplace

restaurant and exhibit area for the state's agricultural products; a mile-long mini-rail; Teen Island, a five-acre peanut-shaped paradise for the 12-to-20 set; an industrial exhibit area, where California's most significant industries are being invited to build their own pavilions; an aqua-stage for a 34-acre lagoon; a livestock educational area and a 29-acre recreational park with "California geography" as its theme.
