What makes it big? You do. By saving regularly ... at Great Western Savings ... where you earn the highest interest in the nation on insured savings.

How big is big? Try this on for size. Suppose you saved \$100 a month and earned 5% compounded daily for 13 years and 11 months. You would save \$16,700 - and earn \$7,452 in interest - for a grand total of \$24,152. From that day on, you could withdraw \$100 a month-for the rest of your life. Your children could do the same. And their children, too. In fact, at 5% compounded daily, your account would pay interest of \$100 a month foreverwithout ever touching the \$24,152 you saved.

When should you make the big start? Today. We'll help you set a New Year's goal and reach it. For nearly half a century, it has been our pleasure to help hundreds of thousands of savers make it big.

5%/5.13% PASSBOOK SAVINGS ACCOUNT—Because we compound daily, our current annual rate of 5% pays you 5.13% when maintained a year. Funds earn from day received, or from the 1st when in by the 10th. You also earn to date of withdrawal, payable at quarter's end, on funds held 3 months or longer. 5.25% BONUS INTEREST ACCOUNT—Pays you a bonus of .25% per year on savings of \$1,000 or more (in multiples of \$1,000) maintained 36 months or longer.
