What interests me most is how meals will be prepared by the housewife of the future. As I understand it, entire meals will be able to be cooked by remote control on stoves operated by a housewife even when she's away from home. All she need do is dial a particular number which will set into operation that

However, no mention is made about wrong numbers. Knowing our luck, I can tell you right now that I'd be dialing "M" for meat loaf and end-ing up with something like "M" for marshmallow.
