FOOTBALL GAME

Catholic Team Loses to City

Quarterback Jimmy Sander emerged the star of Thursday night's second Big Brother all-star football game at the Coliseum.

The unheralded Sander from Carson High unloaded three touchdown passes to lead the underdog Los Angeles City team to a rousing 43-20 win over an all-Southern California Catholic aggregation.

Only 17,842 turned out to see one of the more exciting Southland all-star games in recent memory. It produced 63 points and numerous outstanding plays and performers.

Sander, an All-L.A. City player, had a great night, completing 11 of 21 passes for 240 yards despite the big rush he received that caused him to spend much of the evening looking at the Southland sky.

Two fumbles by All-CIF quarterback Brad Wekall were turned into L.A. touchdowns in the first half and Chris Cole of Reseda intercepted another Wekall aerial in the third quarter and ran it back 55 yards to make the score 36-13 and end the game for all practical purposes.

For the night, Wekall went to the air 40 times, completing 21 for 204 yards and two TDs.

The Catholic stars ran off 81 plays compared to only 67 for the L.A. team and held the City running game to a minus 16 yards, but one can never tell by looking at the scoreboard.

Sander threw strikes of eight yards to Dave Moch of Gardena, 50 yards to Doug Bozeman of Fremont and 66 yards to teammate Ron Carver.

It only took 5:51 for the Los Angeles team to score twice. Sander, with third and four to go on his own 40, hit 6-foot-1, 260-pound Diesel Robinson of San Fernando on a tackle-eligible pass over the middle that saw the biggest man on either club ramble for 44 yards to the Catholic 16.

After two running plays moved the ball to the 8, Sander hit Moch in the corner of the end zone with only 2:54 gone and the scoring parade was on.

Wekall then stopped his own drive twice in the next 10 minutes with fumbles and both were turned into L.A. scores that made it 20-0 before the Catholics could get on the scoreboard.

Catholic League, 9 6 14 0-20
Los Angeles, 14 9 15 7-43
Catholic League scoring: Carter, 25, pass from Wekall; Carter, 2, pass from Wekall; Fields, 40, run.
PAT: Hr. en. 2
Los Angeles scoring: Moch, 8, pass from Sander; Vickers, 1 and 3, run; Carver, 66, pass from Sander; Cole, 45, pass interception; Sander, 30, field goal; PAT: Sander, 4.

JUVENILE STAKES... Leading 2-year-old thoroughbreds will run in the Juvenile Championship race Saturday at Hollywood Park. The purse is set at \$100,000.

Juvenile Championship On Tap Next Saturday

The richest race in the West for two-year-olds, the \$100,000 added Hollywood Juvenile Championship, will be run next Saturday at Hollywood Park. A quartet of stakes winners, including C. V. Whitney's Good Manners, is expected to contest the issue.

In addition to Good Manners, a romping winner of the \$22,600 Haggin Stakes, the Juvenile field is expected to include Bold Thrust, winner of the Cabrillo and Portola Stakes this season, Mr. Joe F., victor in the Westchester and Howard Stakes, and One More Chorus, who earned brackets in the Morvich Stakes at Golden Gate Fields.

Good Manners will have to be supplemented to the Juveniles at a cost of \$7,500, but his last two races have convinced trainer Bob Wheeler he has earned a shot at the rich purse and the title of "best two-year-old colt of the meeting."

Starting slowly early this season, Good Manners scored a brilliant eight-length win over the speedy Pop Artist in an allowance race. A week later he came off the pace with a tremendous burst of speed to down Bold Thrust and Target Day in the Haggin Stakes.

Bold Thrust and Mr. Joe F. appear to be Good Manners' toughest foes in Saturday's feature. Both colts have won two added money events at Hollywood Park. Bold Thrust was especially impressive in winning the Portola Stakes, driving through an opening on the rail to defeat Fleet Kirsch and Lucky Fleet in the rapid time of 1:03 2/5.

Fleet Kirsch and Lucky Fleet, as well as Fleet Allied who was fourth in the Portola, are also among the colts pointing for the Juvenile.

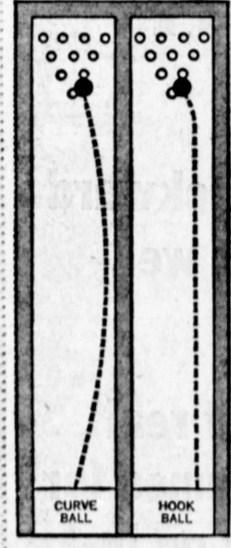

A second possible supplementary nominee is Greek Static. He defeated Mr. Joe F. in an overnight event on opening day, covering the five furlongs in :57 3/5. Later he injured himself slightly in finishing out of the money in the Westchester Stakes.

Brought back patiently by trainer J. E. Cotton) Tinsley, Greek Static returned to the racing wars with a bang, scoring a front-running victory over heavily-favored Fleet Kirsch in a Fourth of July allowance race. Greek Static covered the five and one-half furlongs in 1:03 4/5, three-fifths of a second off Good Manners' winning time in the Haggin Stakes.

BOWLING
with Dick Weber
ALL-PRO CHAMPION

THE CURVE BALL AND HOOK BALL

Professional bowlers always recommend that the average bowler use the hook ball. In like manner, they suggest strongly that the curve ball is at best, inconsistent, will deprive the bowler of high scores and should be avoided.

Whenever I see a bowler using the curve ball, I always advise him to cut down on the arc of the curve as much as possible. This is the first step in getting him to realize that the less arc he has in the ball path, the better his chances are for consistent delivery and good scoring.

In a very short time, this bowler will notice that he has better control, is bowling easier and more consistently. In all probability, he will soon start to roll the hook ball.

Let's consider these facts about the curve ball. When you roll a curve ball, it travels across the lane and then back to the pins. It really travels in two different directions. This increases the distance the ball has to roll and it increases the margin for error.

The wrist action required for the curve ball delivery is extremely difficult to repeat exactly time after time, on every delivery. The result, as one tries to increase or decrease the arc of the curve, is an inconsistent delivery and inconsistent scoring.

I recommend the hook ball for the bowler who has attained some degree of proficiency with the straight ball delivery. The hook ball travels down the lane on a relatively straight line until it approaches the pins. Then, it breaks sharply into the strike pocket. Its departure from a straight line is minimal and the margin for error is greatly decreased. The hook ball has driving power and a good angular follow through which results in a fine pin-scattering action once the hit is made.

Try it... practice it... and make it work for you. It works for me.
