Dyers 'On Location' In Europe and Africa

Mrs. Louis Dyer and daughter, Deidre, are welcoming home Mr. Dyer, who is just returning from a four month movie location in Europe and North Africa. Mrs. Dyer had accompanied him to London on May 6, but returned to California in July to spend some time with Deidre, who returns soon to Western State College in Gunnison, Colo.

The location of the picture, "Hard Contract," began in Brussels where the Dyers became acquainted with the old-world charm of the city and reveled in the beauty of the Grand Palace. With other wives of studio employees, Mrs. Dyer toured many Belgium cities.

"From the Medieval to the ultra-modern" was the change Mrs. Dyer said they made when they flew to Torremolinos, Spain, for the next segment of the picture. The Costa del Sol provided ideal resort living for the story and the entourage, which included film technicians from England, Belgium, Spain, Germany, and Italy.

The entire film company ferried across the Straits of Gibraltar to Tangier, Morocco where they remained for ten days. There the Americans celebrated the Fourth of July at the American Consulate as guests of Mr. and Mrs. Ben Dixon, the American Consul General, and his diplomatic staff.

A chartered plane carried the group to Madrid where the remainder of the film was photographed. Several of the sequences took place in the Prado museum and other places of interest.

Lee Remick and James Coburn, the stars of the picture, also returned this week to their homes in the Southern California area.

Bay Harbor Hospital Guild

Tribute to Late Founder

In 1960, just after the 50-bed Bay Harbor Hospital opened its doors for business, Dr. Bryce A. Pizey, one of the founders, launched a campaign to get a physical therapy department. His never ceasing campaign ended this year with the completion of one of the finest physical medicine departments in any hospital in the southland, but Dr. Pizey was not to see the culmination of his dream. His death came shortly after the work had started on the unit.

On Aug. 30 at 1 p.m., members of the Bay Harbor Hospital Guild, who joined with Dr. Pizey in his campaign for the physical facility met to unveil a plaque placed on the entrance wall in memory of the doctor who worked unceasingly for its development.

Representing the hospital staff was Dr. A. D. Pederson, registered physical therapist. Mrs. Bryce Pizey was looking on with Mrs. Charles F. Crawford, one of

the organizers and second president of the Hospital Guild, according to Mrs. Thomas Yoshida, current Guild President.

Placed in operation only a few weeks ago following completion of the second \$1 million expansion development at the 150 bed hospital facility, the \$40,000 physical therapy department is described by physicians as being one of the finest and up-to-date treatment areas in the southland.

Bay Harbor Hospital Guild raised funds and paid for the figure eight type Hubbard tank, the largest single unit among the many facilities available which was installed at a cost of more than \$4,000.

The plaque, mounted on the wall at the entrance to the area, inscribed "Department Physical Medicine, In Memory of Dr. Bryce A. Pizey, whose first Act on Its Behalf Made It Possible," was donated by Bay Harbor Hospital Guild.

Guild Remembers His Efforts

A plaque honoring the late Dr. Bryce A. Pizey, whose initial action in securing Hill Burton Fund forms actually started the facility, was placed in the Bay Harbor Hospital's new modern physical therapy department by the hospital Guild. At the unveiling, are from left, Dr. A. D. Pedersen, classmate of Dr. Pizey and one of the hospital founders; Mrs. Charles F. Crawford, one of the organizers of the Guild which has purchased much of the equipment for the department, and Mrs. Jean Pizey, widow of Dr. Pizey.
