

NEW DATSUN . . . Many new features have been incorporated into the 1969 Datsun, including an overhead cam engine, disc brakes, and a fully independent rear suspension, as standard equipment. Torrance Datsun, 29710 Hawthorne Blvd., is currently showing the new models.

Datsun Shows Models

At a time when the automotive industry is preparing the public for major price increases, Datsun has introduced its lowest priced car — the Datsun 2.

Priced at a suggested list of \$1,866, the new Datsun two-door model is \$133 under the lowest priced Datsun offered in 1968. The new Datsun-2 Sports Coupe offers the same "fine car" features which caused a stir among auto enthusiasts when the current model Datsun 510 Sedan was introduced in 1968.

Datsun is alone in the \$2,000 economy class to include overhead cam engine, disc brakes and fully independent rear suspension — among others — as standard equipment.

The new Datsun has recorded acceleration time of 0 to 60 mph in 13 seconds flat — and ¼ mile elapsed time of 19.4 seconds.

Other features in the new Datsun 2 Sports Coupe include a new roomier body with greater hip, shoulder and leg room, particularly in the back seat. The Datsun "windows-up" Fresh Air System provides ample, easily-regulated air flow.

Like other Datsun models the new Sport Sedan delivers a long list of extras at no extra cost: Vinyl upholstery, whitewall tires, gas tank lock, heater and defroster, bucket seats, and heavy duty 50 amp battery.

Senator Named For Conference

Senator Ralph C. Dills (D-Torrance) will represent California at the annual meeting of the National Society of State Legislators in Manchester, N.H.

Senator Dills was scheduled to leave for the conference upon adjournment of the present session of the legislature.

Boy Scout Rummage Sale Slated

Louis Beraud, scoutmaster of Boy Scout Troop 115, has announced a rummage sale that will take place Friday and Saturday, Sept. 20 and 21.

The sale will be held at the corner of Oak Street and Lomita Boulevard in Lomita. Sponsored by the parents of the scouts, store hours will be 9 a.m. to 9 p.m. on both days.

Those interested in donating clothes or other items for the sale should contact Irene Ellington, 2016 Allbrook St., Lomita.

'Hire Over-40 Worker' Week Observance Slated

"Hire the Over-40 Worker Week," Sept. 16 through 22, has been endorsed by Gov. Ronald Reagan and is being promoted in Los Angeles County by the California State Employment Service, according to that agency's Los Angeles area manpower administrator, Arthur Morgan.

"We urge employers to hire people because of their ability to do certain jobs. The age of the worker is not necessarily what we call a 'performance factor.' Even though most elderly persons do not have certain qualifications for certain jobs, some elderly persons do have them," Morgan said. "The employer who excludes one of these workers through a hiring policy based only on age, injures not only the older worker but the productivity of his own plant or business."

"We do not suggest that employers discriminate against younger people or

anyone else," Morgan emphasized. "We do ask that employers hire a man because of what he is now and is likely to be in the future and do not judge him blindly by the length of time he has spent on this planet."

"The campaign of the California State Employment Service is purely educational," Morgan said. "We are not charged with enforcement of the 1967 federal act prohibiting age discrimination in employment or the older California law serving the same purpose. The intent of 'Hire the Over-40 Worker Week' is to point out to employers that they damage themselves through arbitrary age restrictions in hiring."

PROTEIN RATED

Dentists say there is very good evidence that milk protein, of all the proteins, is the most cariostatic; that is, it prevents dental decay.

Classes in Woodworking, Dolls Offered at Center

Youth Fine Arts, to be held Saturday at the Joslyn Center beginning Sept. 21, will introduce two new programs along with an art and crafts class to boys and girls 6 to 12 years old.

"Discover the World of Dolls," a program for girls,

will examine the history of dolls, including the culture and originating country. Girls will also make their own dolls, along with clothes, doll houses and furniture.

An exclusive class for boys, "It's a Boy's World,"

will introduce boys to wood construction and working with electric motors. Participants in the class will learn how to fashion wood into constructive items and will construct mobile objects, propelling them with electric motors. The insides of an electric motor will be explored and boys will create original wood models.

Both boys and girls may register for the arts and crafts class where they will explore different media in painting and drawing such as charcoal, pastels, inks, and paints. Participants will also have the opportunity to experiment with sculpture forms and simple craft techniques.

Classes will be held at the Joslyn Center, 3335 Torrance Blvd., from 9:30 to 11 a.m. and 11 a.m. to 12:20 p.m. For further information call the Joslyn Center.
