

Mary Wise

menu and shopping guide.

Let the breathtaking aroma of fresh rolls baking stimulate the appetite of the gals for coffee 'klatch', guests for brunch, or your own glorious family. Easy N'Elegant for you to do—be prepared to elaborate on the secret of ease in serving fresh baked rolls. No longer a secret really—smart gals use Bridgford frozen ready to bake bread to make their favorite rolls (available in the frozen food department of your local market).

To make rolls from a frozen loaf: Let frozen loaf soften at room temperature about 2 hours. Or, in plastic bag (to keep surface moist) in refrigerator 8 to 10 hrs. Cut and shake into your favorite yeast rolls. Place on greased cookie sheet or in pans. Let rise and bake as usual. A one pound loaf makes 12 to 20 rolls; bakes best 375 degrees to 400 degrees for about 12 to 15 minutes or until golden brown. If rolls are placed so that they touch each other,

a little longer baking time is required.

Decidedly different and delicious are these Exotic Cheese Rolls. Serve them hot out of the oven. They can be shaped the day before or several hours in advance and placed in the refrigerator until you are ready to let them rise in a warm place for baking.

- EXOTIC CHEESE ROLLS**
- 1 loaf (1-lb.) Bridgford frozen ready to bake bread
 - 1/4 cup white raisins
 - 1/4 cup brandy or rum
 - 1/4 cup sugar
 - 1 tablespoon flour
 - 1 package (8-oz.) cream cheese, softened
 - 1 teaspoon butter, melted
 - 1 tablespoon sour cream
 - 1/2 teaspoon grated lemon rind
 - 1/2 teaspoon vanilla
 - 3/4 teaspoon sugar
 - 3/4 teaspoon cinnamon

Let frozen loaf soften at room temperature about two hours. Or, in plastic bag (to keep surface moist) in refrigerator 8 to 10 hours. Cut into 12 pieces; roll each into a cylinder about 1 1/2" (Use hands to roll dough on floured board). Wind each cylinder to form a loose pinwheel 2" apart on greased cookie sheet. (Make pinwheels loose; dough comes together as it rises). Pour brandy over raisins. Mix together sugar and flour; add to cream cheese and blend all together along with butter, sour cream, lemon rind, vanilla and brandy - raisin mixture. Place about 2 tablespoons of cheese mixture in the center of each pinwheel. Mix sugar and cinnamon; sprinkle over rolls. Let rise in a warm place until increased in volume 2 or 4 times. Bake 375 degrees about 15 minutes or until done.

Airport Meeting

Members of the Torrance Airport Commission will hold a regular meeting tomorrow in the City Council Chambers. The session is scheduled for 8 p.m.

Gas Dryers

Appliances Dealers Join in Promotion

More than 800 Southland appliance dealers are participating in a fall gas dryer campaign as part of a nationwide "Waltz Through Washday" promotion. The dealers—all located within the service areas of Southern California and Southern Counties Gas Companies—are offering special prices on gas laundry equipment purchased during the month. Their stores can be readily identified by signs and window displays which emphasize the "Waltz Through Washday" theme.

According to H. J. Johnson, sales manager for the gas company's Southwest Division, the campaign will be in effect through Nov. 30.

Gas Dryers should be considered for more than the money-saving aspect, the sales manager explained. Modern gas laundry

equipment offers convenience, time savings and economy.

Easily installed in the utility room, basement, or kitchen, a gas dryer eliminates the tedious chore of hauling wet clothes outside to the clothesline. It is estimated the average housewife saves up to 160 "traveling" hours a year with a gas dryer.

GAS HEAT is faster than natural sunlight, the gas official said. Lightweight articles are ready to iron in 15 minutes and are completely dry in 20. Heavy woolen blankets take only four minutes in a gas dryer for every hour on a clothesline.

Economy-minded families will enjoy years of dependable service with a modern gas dryer, the sales manager added. "Gas dryers cost less to install and operate for about two cents a load."

Gas Company to Bring New Supplies to State

Companies of the Pacific Lighting system, the local gas distributors, expressed gratification this week about Federal Power Commission authorization of additional volumes of natural gas for the Southern California area.

The FPC approved delivery of an additional \$154 million cubic feet of gas per day by El Paso Natural Gas Co. to Southern California Gas Co. and Southern Counties Gas Co. of California.

The local companies—subsidiaries of Los Angeles-based Pacific Lighting Corp.—will distribute the gas to their more than 3 million customers throughout Southern California, including electric generating agencies.

PACIFIC Lighting officials estimate that the first volumes of the additional gas will be received in the Southern California area in

approximately five months, with all of the new volume to be available in seven months.

The additional 154 million cubic feet per day is a 5.9 per cent increase over the presently approved gas supply of the local utilities, including California source gas. It represents a 7.6 per cent increase in certificated volumes which the local distributors receive from out-of-state.

The Pacific Lighting companies expect to complete construction of a 45-mile pipeline system between Whitewater and Cactus City, northeast of Palm Springs, in mid-November. This pipeline section will help bring the additional gas to market.

Certification

Marion Martin, 3106 Sonoma St., is among 79 employees of McDonnell Douglas Astronautics Company to be presented with citations for superior service. Each of the employees received a certificate, a gold pen and pencil set, and a citation pin.
