Drive Carefully!

BETTER CARE . . . Supervisor Kenneth Hahn (center) and William Barr (left), director of county hospitals, discuss a unique plan for an emergency intensive heart care ambulance with Dr. Walter Graf, president of the Los Angeles County Heart Association. The ambulance will be put into use at either Daniel Freeman Hospital or Harbor General Hospital. The pilot program will be to make an effort to save the lives of up to 175 of the 350 persons who now die each year in the Centinela Valley-Harbor area.

Rancho San Antonio Fund Drive Launched

Members of St. Gerard's Council 4819 of the Knights of Columbus conducted their annual fund drive on behalf of Rancho San Antonio, "The Boys' Town of the West," Sunday. Council members knocked on doors in Torrance, Lomita, and Harbor City to solicit funds for the non-profit institution which provides care for 100 boys from Southern California. Local chairman of the fund drive was Joe Sweeney. He was assisted by Jack Wolansky, Oren Davis, Don Randles, Joe Trujillo, Bill Bix, Dick Abshear, Charlie Butterfield, Bill Rettig, Tony Carcerano, Jim Alford, Dean Maley, Pete Crotty, Andy Bambrick, and Al Lawrence. More than 100 councils of the Knights of Columbus participated in the Southland drive, raising \$300,000 in funds for support of Rancho San Antonio. The drive was concluded with a fiesta on the Rancho grounds Sunday afternoon. Rancho San Antonio was organized in 1929 in Redondo Beach and provided a home for six boys at the time. The Rancho is now located on a 40-acre site in Chatsworth.

Cities Accused of 'Dragging Feet' on Storm Drain Planning

Supervisor Kenneth Hahn has accused city governments of dragging their feet in helping start flood control projects.

"The city of Los Angeles, for example, has submitted plans to the Flood Control District for only 63 per cent of its projects in the 1964 bond issue," Hahn said.

"Several other cities are just as guilty."

Hahn believes much of the recent flood damage would have been prevented if cities would have submitted plans for flood control projects.

"AT THIS point, only 37 per cent of the \$275 million 1964 bond issue has been spent or committed," Hahn said.

The flood control program has no chance of being completed during the time originally promised, Hahn added.

The supervisor urged cities expedite their preparation of plans so that all projects can get under way.

Progress on bond issue projects depends to a large degree on the time it takes cities to submit plans for their work.

SO FAR, plans for 8 per cent of 1964 bond issue projects have been received by the Flood Control District. Of those, 63 per

cent are in various other stages toward being built, or have been constructed.

Sixty-one of the 72 cities involved in the 1964 bond issue have completed plans for projects.

Of the others, Burbank, has four projects, of which 62 per cent of the plans have been received; Glendale, 3 projects, 87 per cent; Long Beach, 9 projects, 40 per cent; Los Angeles, 46 projects, 63 per cent; Pasadena, 3 projects, 28 per cent; Santa Monica, 3 projects, 67 per cent; Torrance, 4 projects, 75 per cent; and the County, 32 projects, 95 per cent.

IN ADDITION, Alhambra has completed 75 per cent of its plans; Beverly Hills, none of its plans; El Segundo, 25 per cent;

and Inglewood, 33 per cent.

All work has been completed on the 1952 bond issue program, Supervisor Hahn was told by the District.

Plans for all regular 1958 projects have been received. Work on the last of the 1958 projects will be completed this year.

There were construction savings on regular 1958 projects which were allocated to other jobs beginning in 1964, Hahn said.

WORK FOR 71 drains, at a cost of \$26 million, has been authorized.

Plans for 90 per cent of the supplemental projects have been received and construction is underway or has been completed on 75 per cent of them.
