# Let's clean up the Cub Scouts.

A finer bunch of troopers you'll never meet. But right here in Central and Southern California the Cub Scouts could be threatened.

By dirt!  
And a Cub Scout deserves a clean uniform, right?  
At any price.  
Well, what is the price?  
A penny.

A penny buys enough electricity to wash and dry one Cub Scout uniform. That's based on both washing and drying a load of uniforms for a den of eight.  
Quite a bargain, isn't it?  
Or take your TV set. Electricity runs it for less than 1¢ an hour.  
Or your automatic dishwasher. Less than 2¢ a load.  
Or an electric hair dryer.

Less than 1¢ an hour.

In fact, electricity in Edison areas costs the average family less per kilowatt-hour today than it did 10...20...even 30 years ago. Practically everyone today is using much more electricity—more kilowatt-hours—than ever before, and it's still one of your biggest bargains.

Scout's honor.
