

# Intensive Care Unit For Infants Is Subject

Harbor General Hospital has the only neonatal intensive care unit in the area and the work being done there will be outlined during an "open to the public and hospital personnel" meeting, Tuesday, April 8, at 2 p.m., in the first floor auditorium, 1000 W. Carson St.

Dr. Joseph St. Geme, chief of Harbor's pediatric service, will discuss the care given infants requiring special treatment in the unit.

The "open" phase of the meeting has become a regular monthly event sponsored by Harbor General's Auxiliary Organization and features discussions by doctors from the various departments of the hospital.

"NEONATAL" is defined by Webster as "relating to, or affecting the newborn and especially the human infant during the first month after birth."

Dr. St. Geme will discuss the whole concept of the care of the maximum ill, premature infant, and the full term baby with serious surgical and medical problems. His discussion will also include the problem created by infant distressed breathing, infection, shock, and cardiac disturbances.

DR. ST. GEME will explain when and why there may be use of respirators for such in-

## Principals Traveling To Sessions

Torrance schools will be represented by a dozen principals and an assistant superintendent when the California Elementary School Administrators Association meets in San Francisco early next week.

Dr. Lloyd Jones, assistant superintendent for elementary education in the Torrance district, will head a group which includes principals Larry Miller, John McGee, Richard Leibovitz, Carroll Newberry, Mrs. Catherine Stock, George Chalekson, Mrs. Geneva Shelton, John Kasser, Hugh Dooley, Donald Credell, Clark Merrill, and Ronald Hall.

Conference theme will be "Strategies for Educational Leadership."

# Temple Menorah Passover Seder

The traditional family Seder which celebrates the freedom won by the early Hebrew slaves from the Egyptian Pariah. Its symbolism rededicates Jews everywhere to a faith remarkable for its durability and its many contributions to civilization.

The Sabbath service on April 4 at 8 p.m. will feature a special Freedom Creative Youth Service. In charge of this program will be Sandy Bogin and David Kaufman.

The Passover Service on the Seventh Day will take place at the Temple commencing at 10:30 a.m.

**This I Believe.....  
About Our Schools  
and Our Children**

A MESSAGE FROM STAN DUNN —

A CANDIDATE FOR TORRANCE SCHOOL BOARD

**EDUCATIONAL PROBLEMS OF TODAY ARE SOCIETY'S PROBLEMS OF TOMORROW** — Let us be fair and honest. When compared to other areas, Torrance has an excellent school system, but we cannot afford to become complacent. Other school districts that once thought they had no problems and consequently did not attempt to foresee future needs are now in trouble. We must not let this happen in Torrance.

**AS A MEMBER OF THE SCHOOL BOARD I WOULD SEEK ANSWERS TO THE FOLLOWING QUESTIONS:**

(1) Are we doing enough to develop the "total" student? Many of today's college students are brilliant, but their actions would indicate that they are alienated from society. Where have we failed? How can we develop students who want to participate in and improve society, not destroy it? I believe that programs should be established which allow the student to develop a sense of social responsibility and an awareness of the heritage of this great nation. Tomorrow's orderly society begins in today's classroom.

(2) Is the curriculum relevant to the needs of today and tomorrow? Cultural and technological changes are taking place at a pace few of us can keep up with, but our schools must. Students and parents have a right to expect the schools to be aware of such changes in order to prepare the student to assume the responsibilities of a citizen in tomorrow's society. The concerned citizen of tomorrow is the educated student of today.

(3) Can we get more education for our dollars? The tax burden on the homeowner has passed the breaking point. Retired

citizens are particularly hard hit by this ever-increasing tax load. Ways must be found to keep taxes down. Let's take a page from private enterprise! We can increase efficiencies through modern business techniques without sacrificing quality of education.

(4) In what areas can there be more cooperation between local government and the schools? Greater emphasis should be placed on the sharing of school and city recreational facilities. Police relations and narcotics education and should become a cooperative effort.

(5) How can we improve our remedial programs? Modern society demands a high degree of skill in Math, English, and Spelling, not only in the professions but in all occupations whether it is Carpenter, Secretary, Printer, Sales Clerk, Repairman, or Plumber. More attention must be paid to early diagnosis of weak areas in our students, and the application of corrective, remedial programs. It is only by being willing to cope with the problems of today that we can prevent the tragedies of tomorrow.

(6) Can ways be found to aid our teachers? Teaching is more than a job. It is a profession dedicated to the building of our most precious asset — our children. It is a rewarding, but often frustrating vocation and requires the full understanding and cooperation of the community. The school board must be alert to finding new means of encouraging and aiding educators so that the Torrance schools will always have the finest teachers available.

I AM CONVINCED THAT, with your support, answers to these questions can be found.

Thank You
