Why would a bank vice president move his \$10,000 savings account to Western Fed?

Hugh Evans, Jr., President

Because if he needed those funds after only, say, 80 days, he'd earn \$111.80 at Western Federal—interest he couldn't get at his own bank!

To earn commercial banks' highest rate you must buy "Certificates of Deposit"...and you may withdraw those funds before maturity only in case of hardship, and then at less than full earnings.

Western Federal currently pays the highest rate available on insured savings. Wouldn't it be nice to know your savings would earn that rate whenever you needed them? 5.25% Bonus accounts also available.
