

Original Drama Opens Tomorrow

Megan Terry's "Home," a futuristic play about over-population, will be presented by the Dominguez Players at California State College, Dominguez Hills, beginning tomorrow. The student production will be presented in the campus' new theater under the direction of Dr. Harold Marien-thal.

Dominguez Players in the May production of "Home" will be Connie Hauser, Ed Kerr, Rick Van Slyke, Annabel Baird, Doug McEwan, Rochelle Blumel, John Wilson, Jill Kennedy, Shirley Griggs, and Dave Turling.

The Dominguez production will premiere tomorrow with curtain time set for 8:30 p.m. Other performance dates are May 16 and 17 and 22, 23 and 24. General admission tickets can be purchased for \$1.50 each.

AN IMAGINATIVE picture of the world in the future.

"Home" offers a possible outcome of the world's present state of growing over-population.

The world, as presented in Morgan's play and enacted by the Dominguez Players, is no longer the world as known by man today. The world has become a shell and within the shell, in uniform honeycomb structures, people are born, live, and die.

In this portrayal of the future, there is no longer such a thing as free will. Instead, every human action including procreation is determined by the central control center. A person is born in a certain "room" in this honeycomb structure and it is impossible for that person to leave the "room" except after death.

"Home" illuminates one day in the lives of nine people who live in one of these "rooms" of the future world.

Highway Patrol Offers Hints for Camping Out

With the advent of the camping season, an increasing number of California families will take to the roads with a trailer attached to the family car.

The California Highway Patrol has available in its 70 area offices throughout the state a free brochure, "Trailer in California." It is a helpful compilation of information for people who own or rent trailers.

Some of the highlights of the brochure are these:

• The maximum speed limit while towing trailers in California is 55 miles per hour.

• On two-lane highways, five or more vehicles are following, the vehicle towing the trailer is required to turn off the roadway wherever a sufficient area exists for a safe turnout.

• On two-lane highways, vehicles pulling trailers must stay at least 500 feet behind any truck or any vehicle pulling a trailer, except when preparing to pass.

• Trailer coaches must carry three red electric lanterns, red emergency reflectors, or pot torches to be set out if the coach is disabled on or within

10 feet of the roadway during darkness.

• Headlights, or your equalizing hitch, should be adjusted so the added weight of the trailer does not cause glare in the eyes of oncoming drivers.

• The law requires two rear-view mirrors, one on each side of the towing vehicle.

The California Highway Patrol urges tourists to pick up a copy of the brochure at any CHP office, together with two others, "Motoring in the Golden State" and "Freeway Driving." Information about routes of planned trips may also be obtained at the patrol offices.

Limitation May Apply To Widows

The widow of a veteran who died of a service-connected condition may receive dependency and indemnity compensation regardless of her income, according to Mort Webster, manager of VA's Southern California regional office.

But an income limitation does apply to a widow if the VA death pension is for a wartime veteran who died of a condition not attributable to service.

Complete information on these and other benefits for widows and dependents of veterans is available from any VA office, Webster said.

Songwriters Club to Meet

The Vel-de-Nez Songwriters Club will hold its regular meeting Saturday at 7:30 p.m. at the Wilmington American Legion Hall, 1260 Broad Ave.

A White Elephant sale and a Kangaroo Court will highlight the meeting, according to Rena Hiatt of Torrance, ways and means chairman. New members will be introduced. They include Carroll Bender of Torrance.

Democrats Support Candidates

In a unanimous resolution, the South Bay McCarthy Democratic Club has endorsed the Rev. James Edward Jones, Dr. Robert L. Docter, and Dr. Ralph Richardson for the Los Angeles Board of Education in the May 27 election, according to Mike Herrera of Torrance, club president.

The resolution pointed out that Jones, Docter, and Richardson have already demonstrated their concern for young people in the community and "are best qualified by experience and training."

Jones, Richardson and Docter are members of the Sound Action for Education (SAFE) slate.

Telephone Uses Paper, Gold

Your telephone is so handy and easy to use any time you want it — it couldn't be very complicated, could it?

Wrong! Under that sturdy, attractive cover on your set are 460 precision parts of a compact machine that is connected to an

even more complex system of lines and switches that enables you to dial almost any point in the country.

"Considering its large number of parts, the reliability of the telephone is phenomenal," according to Jim Conn, manager of Pacific Telephone's

Torrance office.

"THERE are 76 parts in the dial unit, 73 in the headset, 73 in the ringer and 108 in the electrical network. Combined with these are 119 other parts that form a complete phone." The telephone is subject to

continuing improvements developed through research at Bell Telephone Laboratories.

"The standard desk set used today has been modified 1,800 times since it was introduced in 1874," the PT&T executive added, "yet it looks practically the same."
